**Objectives:** This class is primarily designed for reviewing homeworks and go over the nasty details.

**Office Hours and Location:** Wednesdays, 10:00-11:00. 425E

**Grading:** Grading is based on a  $\checkmark-$ ,  $\checkmark$ ,  $\checkmark+$  policy. Everyone will get a  $\checkmark$  unless in extreme cases such as writing everything correctly ( $\checkmark+$ ) and not handing a homework or missing a whole question ( $\checkmark-$ ).

## Class Policy:

- Try to be punctual. I get distracted when people move in and out of the room.
- Try to be neat and clean in your homework. I will warn you twice on this issue and then you have to type your homework, otherwise you get a  $\checkmark-$  by default. I am the sole judge on this issue and will not discuss my reasons for whether I find a particular homework clean or not.
- I do not keep attendance and everyone is free to attend or not.
- There is no tolerance for violation of Academic Integrity. So write your own solutions rather than copying a friend or a previous solution. You will be in huge trouble comes Summer if you do not do the homeworks yourself.
